

How to start using the ClinicalKey Student Bookshelf

STEP 1: REGISTRATION

- Register on [Login - ClinicalKey Student](#) in your browser (you need to be in the university network in the campus or get remote access to the library resources if you are at home)
- Open any book → Open any chapter of any book
→ Click “Add To Bookshelf” → Click “Launch Bookshelf”

STEP 2: GETTING OFF-LINE ACCESS WITH THE BOOKSHELF APP

- If you registered with Registration ID, [you can download the app now](#)
- If you have an IP access (on the campus or by the VPN/Proxy), [you need to be in the campus in the university network to download the app](#)

How to use the app

On your mobile device or laptop, open your app store and find ClinicalKey Student Bookshelf app

- ClinicalKey Student Bookshelf For PC – Windows - [link here](#)
- For android devices [link here](#)
- For apple devices [link here](#)

1. Download the app
2. Open the app and log in with the credentials you used for registration
3. You will see the books you added to your Bookshelf
4. Click on the books and download the ones you would like to access off-line

You can watch this 8-minute recording to see how to start using the app:
