Doctoral School Universitatea de Medicina, Farmacie, Științe și Tehnologie “George Emil Palade”, (UMFST)

Address Targu Mures, Romania

29/11/2022

Rapid diagnostics for tuberculosis detection OpenWHO

- Explain the rationale for delivering diagnostic services and illustrate the key components and organization of a TB diagnostic network in different settings;
- Describe the steps to be implemented when introducing a new diagnostic tool into an existing laboratory network;
- Describe the TB diagnostic algorithms that incorporate the most recent WHO recommendations for detecting TB and DR-TB and outline considerations needed to be made for the implementation these new algorithms;
- Explain indicators and targets and interpret results for performance monitoring of the laboratory network.
