

Student research group on supramolecular chemistry, proteomics, separation and identification of active ingredients and other analytical & organic chemistry and biopharmaceutical issues

Acronym: SCHEPSIA

Permanent members:

Head of the group: Assoc. Prof. Dr. Șerban Andrei Gâz Florea

Members: Assistant PhD student Moldovan Octavia

Technical assistant: Anuța IACOB

Contact:

University of Medicine, Pharmacy, Science and Technology “GE Palade” of Tîrgu Mureș

Faculty of Pharmacy

Gheorghe Marinescu street, 38 Postal code 540139

Phone: +40.265.215551 ask for 358

Email: chimie.organica@umfst.ro

Students currently involved in our research group:

- **Fekete Răzvan**
- **Atănăsoaie Maria**
- **Hoza Valentina**
- **Ștambert Raluca**
- **Badea Lorraine-Isabelle**
- **Păcurar Denisa**
- **Tulit Andra**
- **Dina Andreea-Gianina**
- **Cezar Roxana-Mihaela**
- **Pușcaș Simona**
- **Luca Aurel-Daniel**
- **Sebesi-Kallay I. Dávid**

Research topics:

- Design, synthesis and structural analysis of new organic compounds and/or supramolecular compounds (organic) with possible biological activities, opto-electronic or logic gate properties;
- Ferrocene chemistry;
- Separation and identification of active ingredients from different mixtures (food, plants, cosmetics etc.);
- Separation, identification, structural analysis and characterization of new compounds with possible biological activities from plants;
- Proteomics – snake venom analysis;
- Proteomics – synthesis of new peptides;
- Sinteza și analiza structurală a unor derivați de tiazol cu potențiale aplicații farmaceutice;
- Interacțiuni medicament-aliment din punct de vedere chimic;
- Analiza influenței unor factori asupra metabolismului uman;
- Sinteza unor hibrizi de chinolone cu potențială activitate antitumorală;
- Studii in-silico ai unor derivați heterociclici pentru găsirea de noi compuși cap de serie;
- Studiul unor compuși chimici cu potențial efect de ameliorare a toxicității pe termen lung a monoglutamatului de sodiu;

Research infrastructure (relevant items): HPLC-UV (collaboration within department), LC-MS/MS (collaboration within Faculty), RMN (collaboration with Babeș-Bolyai University), GC-MS (collaboration with Babeș-Bolyai University), SDS-PAGE, bio facilities (for experiments on animals if necessary);

Relevant *in extenso* ISI articles of the research team (as main authors: first author, corresponding author and last author):
