| 6.    | Collecting biological samples for analysis: blood, urine, sputum.                                                                                                                                                                                             | 20 hours          |

### ASSESSMENT:

According to published deadline, in August-September, students should submit to the Secretary Office a logbook with the description of all medical activities performed in the hospitals.

All activities, according with the syllabus, should be validated by the supervisor from the Hospital, with stamp and signature.

All submitted documents will be analyzed and the student will receive a grade from 1 to 10.

Students will pass this subject and will receive 2 ECTS if the grade is minimum 5.
