

ANNOUNCEMENT
SELECTION COMPETITION
FOR PARTICIPATION IN ERASMUS STUDY MOBILITIES - SHORT TERM -
ERASMUS+ BLENDED INTENSIVE PROGRAMME 2023-2024
FIELD OF STUDY ARCHITECTURE

The Erasmus+ Office of the International Relations Department organizes the selection competition for **Erasmus+ student mobilities for studies - Short-term mobility with a mandatory virtual component** and for one **staff training mobility** for participation in a **Blended Intensive Programme** for the academic year 2023-2024 for the field of **Architecture**.

The participation to this program depends on the final acceptance of the organizing university, the Academy of Applied Sciences in Nowy Targ, Poland.

Details

The educational workshop supported by Erasmus+ under the Blended Intensive Programme (BIP) is called *Regional Winter Garden with Photovoltaic Energy Source*. The short term mobility will take place in physical format at the Academy of Applied Sciences in Nowy Targ, Poland, from 20 to 25 May 2024. The virtual component timetable will be communicated to selected participants.

THEME: The faculty is located in a relatively green, medium city urban environment. Its surroundings as well as the main building were built around the end of the 20th century, creating a kind of regional style campus.

The outdoor area serves till today partly as the car parking. There is a kind of outdoor shelter for smoking students, but it is not sufficient and too small. The design task for planned BIP workshop is to design winter garden for outdoor recreation, fitting to the regional style of the campus with local tradition and materials, but using contemporary building techniques and off grid renewable energy source.

Participating students may answer for the following problem: how they would like to improve the existing facility for the future?

For students

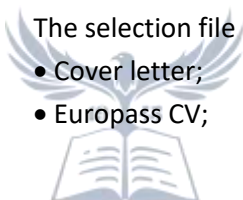

The students selected by our university whose participation will be confirmed by the organizing university will receive funding for the physical mobility (subsistence costs and travel).

Eligibility criteria: students enrolled at George Emil Palade University of Medicine, Pharmacy, Science and Technology of Targu Mures, program of study Architecture, years of study: I, II and III.

Selection documents

The selection file must contain the following documents merged in one PDF file:

- Cover letter;
- Europass CV;

- Identity card.

Selection criteria: averages of the completed academic years, as certified by the Faculty of Engineering and Information Technology.

All applications have to be submitted between April 26, 2024 and April 29, 2024, until 11:00 a.m., by sending the PDF file with the application documents to the **email address:** veronica.zaharagiu@umfst.ro

Submitted applications will be evaluated by a designated commission.
